The Windsor Advantage

Windsor Windows & Doors helps bring your vision to life.

Our extensive line of windows and doors opens up a home to the ambiance and beauty of the outdoors, while the inspired designs and lasting performance of Windsor products open up a world of possibilities to architects and builders.

We’re committed to providing the finest products, engineered to meet the needs of all your projects. We’d like you to experience the Windsor Advantage... a complete set of impactful solutions delivering outstanding service, selection, quality and value.

With over 60 years of experience developing unique home construction solutions, from EZ Tilt to the first all-cellular PVC exterior window, we’re dedicated to bringing you the highest quality product on the market – all for the best value. Choose from a wide selection of products for new construction, remodeling or light commercial applications. Windsor’s windows and doors allow you to get creative with your next project, without sacrificing quality or stretching your budget.

The Windsor Advantage means you won’t pay a premium for superior quality, exceptional service and a fair price. You’ll find with your very first order, Windsor is not just a window and door company. We’re a group of dedicated professionals working every day to solve problems and build lasting relationships.
What Sets Us Apart

Whether you’re looking for the beauty of wood in our Pinnacle products, the longevity of our Legend cellular PVC, the efficiency of our Next Dimension vinyl or the easy installation of our Revive™ pocket replacement windows, rest assured Windsor takes pride in producing meticulously crafted windows and doors for each specific order. We use the highest quality materials, resulting in products that are durable, reliable and weather resistant. Our goal is to exceed your expectations by providing short order lead times, reliable delivery dates and the flexibility to respond to your custom requests. And because our windows and doors are designed and assembled according to exacting quality standards, we have what you need to bring your vision to life.

State-of-the-Art Lisec® Glass Fabrication Equipment
Our highly-automated glass line requires no manual manipulation – dramatically reducing seal failures caused by human contact with the glass – while our robotic equipment provides an incredible level of accuracy for a fast and efficient material flow.

Super Spacer® Technology
Super Spacer dual-seal moisture barrier technology provides one of the most thermally efficient spacers in the marketplace, meeting or exceeding ENERGY STAR guidelines in all zones. All-foam Super Spacer reduces heat and cold conduction, which results in more comfortable living for homeowners and fewer callbacks for builders.

Cardinal® LoE 366 Glass
Windsor products feature LoE 366 glass with a coating that alters the way glass transmits visible and invisible light. LoE 366 decreases heat loss in the winter and heat gain in the summer. Reduced ultraviolet light penetration also helps prevent your furniture, drapes and carpet from fading.

If you’re searching for Dual Low-E and tempered insulated glass, look no further than Windsor. Combining Cardinal LoE 366 soft coating with Cardinal i89 LoE, the Dual Low-E glazing option creates clear, insulated glass with superior performance.

Our Commitment to the Environment
Windsor promises to act as a responsible corporate citizen, optimizing the use of resources and manufacturing products that not only have a positive impact on the environment, but also the health of people.

Windsor understands the challenges builders and architects face when committing to building green, and we want to make it as easy as possible. We seek third party green certifications and join organizations that value what we do – making our Earth a cleaner place to live. We want homeowners to have peace of mind, knowing when they choose Windsor, they are choosing a product that has minimal impact on the environment. And we won’t stop there; we are continually reevaluating processes and redefining the expectations that we hold of ourselves as a responsible manufacturer.

ENERGY STAR® Partner
Windsor Windows & Doors is proud to be an ENERGY STAR partner. Look for the ENERGY STAR logo on our products, which means those models meet EPA guidelines for energy efficiency. Performance data is available on our website at www.windsorwindows.com.
The finest materials for the finest homes.
The wood interiors of our Pinnacle products are made from the finest Clear Select Pine, specially treated for long life. Select our Douglas Fir, which ranges in natural colors from bright white to a rich rose, or an attractive Natural Alder with wood tones spanning from a golden honey to handsome reddish brown. These exquisite woods will be a complement to any home’s décor for years to come.

Whether you choose a swinging or sliding patio door for a traditional look with modern performance, a stunning bi-fold door to let the beauty of nature into your home or a multi-slide door to highlight your outdoor area and expand your interior living space, a Pinnacle patio door is a great way to enhance your view.

Clad
Our top-of-the-line Pinnacle wood clad windows and doors offer a large selection of styles and shapes. The exterior comes in either a primed wood or low-maintenance extruded aluminum cladding in 22 standard colors, 20 feature colors or eight anodized finishes, with custom color matching available.

Select
An elite line of windows constructed from enhanced components that provide unsurpassed performance. Select products are currently offered in casements (vented and fixed), picture, transom and awning. This line features a unique push-out style casement and awning, as well as a retractable screen option.

Unmatched durability and performance with the look of real wood.

Highly resilient CPVC construction keeps Legend windows free from rotting, warping, cracking, sticking and swelling, even in the harshest coastal conditions. And with fine attention to detail, including a variety of trim and grille options, Legend’s traditional beauty and solid wood feel make it suitable for use in many historical renovations.

Available in casement, double hung, radius and direct set windows with hundreds of standard sizes and various custom sizes, along with specialty designs for coastal regions, you’re sure to find a Legend window suited to your every need.

Hybrid (HBR)

Blending the strength of the Legend CPVC frame with a wood clad sash, Legend HBR from Windsor represents the next advancement in hybrid window and door technology. Beautiful wood craftsmanship and the paintable exterior cellular PVC frame make Legend HBR a versatile choice for use for replacement, new construction or historical applications.

Legend HBR windows and doors are packed with features, including cellular PVC blind stops and extruded clad wood sash in anodized finish or standard, feature or custom colors. Additionally, you can mix and match styles and colors to complement your design vision by taking advantage of contrasted frame colors and rough openings identical to those of our standard Legend windows.

Next Dimension
The Versatility of Vinyl

Convenience meets durability.
Advanced vinyl technology ensures easy operation, superior energy efficiency, low maintenance and high performance. And, with several hardware and finish options available, our Next Dimension line offers a vinyl solution for any application.

Our products are built with vinyl extrusions that ensure superior weathering, durability and color retention. We also use Edgetech Super Spacer® technology and Cardinal® LoE 366 glass, which provides a glazing system that is top-of-the-line in terms of energy efficiency.

Signature
Next Dimension Signature gives you a wide array of looks and hardware styles to mix and match, including products offered in half round, trapezoidal and octagonal configurations. Next Dimension windows and doors are built with quality and low maintenance in mind, using heavy vinyl extrusions to add outstanding strength and stability to their structural performance, ensuring your windows and doors perform as well as they look. Superior construction and lasting good looks.

Classic
Next Dimension Classic is your ticket to a traditional look for your design and to get the same level of quality engineering, construction, durability and performance characteristics of all Next Dimension vinyl products. Classic windows and doors are built to retain their look season after season, ensuring your architectural vision holds true.

Pro
Next Dimension Pro windows represent the ideal balance of appealing style, reliability, energy efficiency and cost. Uniquely suited for use in multi-family, residential and light commercial applications, Next Dimension Pro windows and doors are a great substitute for aluminum. The distinguishing feature of Pro products is their UniFrame construction. Through the use of special frame components and a common T-mull design, Pro products are built with improved strength and performance, while offering greater aesthetic appeal over mulled units.

Breathe New Life into Your Home

A fast, uncomplicated upgrade.
Revive pocket replacement windows help you transform each window in your home with stunning Windsor quality in about an hour, with fewer worries about disturbing your treasured wood trim and other interior and exterior features. Because they’re meticulously built to order with the features you want, Windsor Revive pocket replacement windows are a fast, uncomplicated upgrade.

Revive Wood Clad
Available in double hung operating or double hung picture windows
The sash and pocket frame are protected from the elements by heavy-duty, extruded aluminum cladding on the exterior. Inside, you’ll enjoy the warmth and beauty of natural wood.

Revive Hybrid
Available in double hung operating or double hung picture windows
Heavy-duty, extruded aluminum cladding protects the pocket frames of our Hybrid windows, but the sashes are constructed of cellular PVC for unmatched energy efficiency and the look of real painted wood.

Revive Vinyl
Available in casement operating or casement picture, single hung operating or single hung picture, and double hung operating or double hung picture windows
So well-made, they come with a limited lifetime warranty. Thick, multi-chambered vinyl adds strength and decreases air infiltration. Versatile Windsor Revive Vinyl windows are guaranteed to never fade, peel or chip.

Revive Sash Replacement
Designed to replace wood double hung windows, Windsor’s Revive Sash Replacement Kit makes updating easy, allowing you to keep your existing interior trim and plaster in place. Choose from three different replacement sashes: versatile primed wood, durable aluminum clad or low-maintenance cellular PVC. Revive sashes feature EZ Tilt, which provides fast access for hassle-free cleaning.

### Windsor Product Line Overview

#### Awning

Awning windows swing outward, with one sash hinged at the top. These windows are often placed above or below other windows and doors for additional ventilation. They open and close with the turn of one easy-to-reach handle, which is located on the bottom of the window frame.
