# WE MAKE MILLWORK EASY

It all began in 1954 when a long-haul truck driver in Utah named Merrill “Bud” Dame accepted sawmill equipment from a customer who owed him a significant amount of money. With no experience in the wood industry and only a high school education, Bud’s entrepreneurial spirit, resourcefulness, and drive led him to begin producing lumber and mouldings, planting the seeds of what would become Woodgrain: one of the largest millwork operations in the world, with locations all around the United States and Chile.

Today, Woodgrain proudly continues Bud’s legacy by remaining family-owned and operated, while making the highest quality wood building products with an unwavering focus on our customers. Woodgrain continues to grow and leverage its strength of being vertically integrated. Woodgrain consists of five divisions, allowing us to find the most efficient path through the supply chain to meet our partners’ unique needs. With the May 2022 acquisition of Huttig Building Products, Woodgrain is committed to offering a broad assortment of the most trusted building materials to our customers, while increasing our value-added services. By combining Woodgrain with Huttig’s 135 years of rich history and depth of knowledge, we are on a mission to make building easy by adding value in everything we do and connecting you to the most trusted specialty building products available. Our goal is to Make Building Easy!

# OUR VALUES

**INTEGRITY.** We hold ourselves to a high moral standard with virtue at our core. This standard continues to be the key driver of our success.

**SERVANT LEADERSHIP.** We aim to do what’s best for our company and the greater good. We are environmental stewards, using and reusing raw materials throughout our product offering.

**RESPECT FOR PEOPLE.** After 60 years in business, we’re proud to be family-owned. We see our employees and customers as part of our family, and believe they should be treated with the same care and attention.

**CONTINUOUS IMPROVEMENT.** As our company grows, we continuously seek new ways to improve ourselves while delivering quality products. We provide the best selection at the lowest total cost of ownership.

**EXCEEDING CUSTOMER EXPECTATIONS.** The products we offer and people we serve are diverse, but our commitment to our customers is the same. From homeowners to pet owners to builders, we offer practical solutions that beautify homes. We aim to provide the best experience to every customer, every time.

# THE WOODGRAIN DIFFERENCE

It all begins with our vertical integration. What does that mean? It means we own the supply chain, from the forest to your location. We manage the procurement of forest timber and from the processing of lumber to the facilities we use to manufacture final products, we own each step in the process, which ensures complete oversight of the quality of the wood we process. And because we own our trucks and distribution network, we provide our partners with just in time inventory, on time and complete.

It also means that sustainability is at the forefront of everything we do. Our raw material comes from sustainably managed forests. More than 99% of our wood fiber is used in some form—from composites to pellets, our manufacturing process residuals don't go to waste.

At Woodgrain, we are committed to delivering the best value to our customers through constant growth of our people, products, and processes.

# A SOUND DECISION SOLID CORE DOORS

- ▶ Solid core doors are **SOUND REDUCING**, they block sound more efficiently than hollow core doors.
- ▶ Solid core doors are simply built better with a strength you can **FEEL** the moment you open the door.
- ▶ Solid core doors are **DURABLE**, able to withstand the dents and dings of normal wear.

It's time for a better door experience.  
Make solid core doors the **STANDARD.**

From dueling conference calls to virtual school sessions, discover how solid core doors keep sounds from colliding.

## Doors Designed to Feel Different

What's inside is what  
makes us better.

Solid core doors are simply built better with a strength you can **FEEL** the moment you open the door. The durable core throughout is able to withstand the dents and dings of normal wear.

# STILE & RAIL CONSTRUCTION

- TOP RAIL**  
The uppermost rail of a stile and rail door.
- PANEL (FLAT)**  
A door panel in which the perimeter does not contain a machined profile (panel raise). Constructed with veneer on the face and a composite core for a stained finish, or MDF for a painted finish.
- PANEL (RAISED)**  
A door panel whose faces are raised above the perimeter and whose edges are shaped to fit into grooves in the stiles, rails and mullions. These panels are typically bladder pressed or rim banded for a stained finish or MDF for a painted finish.
- MULLION**  
A vertical member used to separate panels. Also known as a "mull".
- INTERMEDIATE RAIL**  
A rail, other than the top and bottom rail, used to separate panels, or to separate panels from glazing materials in a combination door. Also referred to as "cross rail".
- STILE**  
The outermost vertical member of a stile and rail door.
- LOCK RAIL**  
An intermediate rail located at approximately adjacent to the lock.
- BOTTOM RAIL**  
The bottom rail of a stile and rail door.
